RE: VISITATION DURING COVID-19 PANDEMIC

DATE: MARCH 25, 2020

Please be aware and advise your clients that both the General Division and the Juvenile Division of the Washington County Common Pleas Court recently met and both divisions expect all parties subject to visitation orders to fully comply with their current orders despite the imposition of Ohio Department of Health's Stay at Home Order.

In other words, children shall continue to be exchanged for visits according to the regular schedule followed by the parties prior to the Coronavirus Pandemic unless a true **verified** medical issue involving the child or party to the visitation order makes it unsafe for the visit to occur.
